*Carillon Music and the Royal Canadian College of Organists are pleased to offer this four day introduction to playing the organ. Originally, it was set up for pianists who played organ with very little organ background instruction. It is still helpful for that.*

*However, Universities have now shut down their organ departments because of too few students. This has resulted in churches getting rid of their organs, at least partially, because there is no one qualified to play them.*

*Carillon Music, doing this Organ Summer Workshop for 31 years, decided to give the tuition cost as a scholarship to active piano students 20 years of age, or under, to encourage them when finished with piano to continue on organ. It is a slow process, but has been working as we have students now playing organ for a number of churches. Piano students who advise us of interest are issued a \$300 scholarship to attend for no tuition cost.*

*We would love this free for everybody, but there are costs which we need to cover in order to be able to continue offering this for students. We sincerely thank you for your help in this very important endeavor!*
